

biocon
Procedure Packs

specific | high-quality | safe

Key Aspects

A perfectly harmonising team of well-trained specialists manufactures customized procedure packs in our ISO-Class 8 clean-room facilities in Mönchberg / Germany. The entire production processes are being monitored and documented, and are subject to permanent control.

Essential Assets for your Benefit:

- ⊕ Premium-quality products meeting all European Standards
- ⊕ Short processing times
- ⊕ Quick response times to implement specific customer requests
- ⊕ Certified Quality Management

Customer-specific Solutions: Experience and Quality at the customer's disposal

Competent Service

Our products are designed to meet the requirements of our customers. Jointly with you we develop innovative solutions, tailored to suit the market needs.

A detailed pack configuration form is available online under downloads in the service section at www.biocon-online.de

biocon single-use Surgical Gown

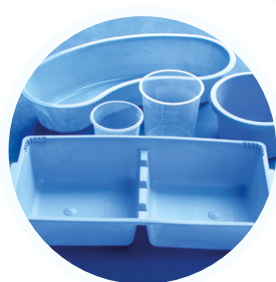

Excellent material properties and wearing characteristics are the outstanding features of our surgical gowns made of Spunlace or SMMS.

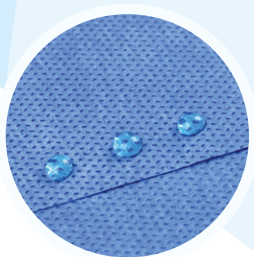

The SMMS Surgical Gown with its welded seams provides maximum protection and is available from stock.

Premium-quality Components: Product safety is based on certified suppliers and our own demand for high quality standards

Surgical Accessories

You may choose from a variety of CE-marked components made by reputable suppliers. In the event that the product of your preference is not included in our range of accessories we will jointly find a perfect solution for sure.

SMMS

(Nonwoven)

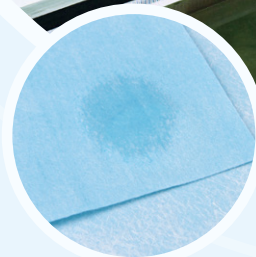

- similar to textile fabric
- breathable
- high abrasion resistance
- fluid-repellent
- high microbial barrier

Softesse

(Nonwoven)

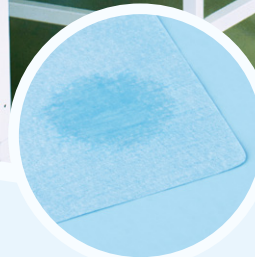

- similar to textile fabric, especially soft
- breathable
- high abrasion resistance
- fluid-repellent

Biplex

(Nonwoven / PE-layer, 2-ply)

- waterproof and absorbing

Triplex

(Nonwoven / PE-layer / Nonwoven, 3-ply)

- waterproof and absorbing

Quality and Diversity: A large variety of Drapes and Covers, made to meet your individual requirements

Surgical Drapes

We manufacture plain drapes, self-adhesive drapes or complete drape systems, plus armboard covers and drape table covers.

Fenestrations

In addition to accessories like fluid collection pouch, incision foil, bridge or tube fixation, your drape will carry a punched fenestration of your preference.

The final Product

biocon procedure packs consist of individually composed single-use items as per customer specification. Usually a procedure pack is composed of surgical drapes, surgical gowns and several additional single-use medical devices. By intensive consultancy we advise you on the large variety of components available. Consequently, the individually customized procedure pack is composed in a perfect configuration as needed for your surgical procedures.

Individual Flexibility: Always the proper product

Logistics

During the recent years, our logistics has been expanded substantially. Large storage capacities enable us to offer exactly the kind of logistic services required by our customers.
